DETAILED ACTION

The following action is in response to the amendment received May 23, 2005.

Drawings

The replacement sheet of drawings was received on May 23, 2005. This replacement sheet of drawings is acceptable.

Election/Restrictions

Claim 3 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on January 3, 2005.

A complete reply to this final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 7, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by either Adachi('072) or Segawa et al.(US 2002/0052265 A1). The Adachi and Segawa et

The control unit 12 is programmed to control the signal pressure to hold engagement of the lockup clutch with the spool of the lockup control valve being stationary in an axially movable position between two fully biased positions, *i.e.*, in any of the slip positions between the fully engaged position and the fully released position.

Response to Arguments

Applicant's amendment to the specification overcomes the previous objection. Therefore, the objection to the specification set forth in the previous Office action is withdrawn.

The amendments to claims 4, 7, and 10 overcome the previous rejection under 35 USC 112, second paragraph. Accordingly, the rejection under 35 USC 112, second paragraph, is withdrawn.

Applicant's arguments with respect to the prior art rejection of claims 4, 7, and 10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
